Multiplication Problems

Can you solve these word problems?
Read the problem carefully, underline the key information, write a number sentence and then write the answer. The first one has been done for you.

1. 6 children have 5 biscuits each. How many biscuits are there altogether?

   6 x 5 = 30   **30 biscuits altogether**

2. 3 rabbits have 2 carrots each. How many carrots are there altogether?

3. Sam has 3 10p pieces in his pocket. How much money does he have altogether?

4. A flower has 5 petals. How many petals do 9 flowers have?

5. There are 5 pencils in a pack. Mrs Jones needs 32 pencils. She says, 'I must buy 8 packs.' Is she right? Explain your answer.

   Challenge: Will there be any pencils left over? If so, how many?
