

DAWPOOL

Dawpool C.E. (Aided) Primary School

Special Educational Needs and Disabilities (SEND) Policy

Vision Statement

‘The Dawpool community are united in their ambition to create a school which embodies the person, love and work of Jesus Christ: a school which enables Christian values to flourish and where all children may experience the abundant life that Jesus offers.’

*‘The Fruit of the Spirit is Love, Joy, Peace, Patience,
Kindness, Generosity, Faithfulness, Gentleness
and Self-Control’*

(Galatians 5: 22-23).

The School SENCO is Miss L. Venables

1. Introduction

- 1.1** This policy is reviewed annually.
- 1.2** This school provides a broad and balanced curriculum for all children. The National Curriculum is our starting point for planning that meets the specific needs of individuals and groups of children. When planning, teachers set suitable learning challenges and respond to children's diverse learning needs. Some children have barriers to learning that mean they have special needs and require particular action by the school.
- 1.3** These requirements are likely to arise as a consequence of a child having special educational needs. Teachers take account of these requirements and make provision, where necessary, to support individuals or groups of children and thus enable them to participate effectively in curriculum and assessment activities. Such children may need additional or different help from that given to other children of the same age.
- 1.4** Children may have special educational needs either throughout or at any time during their school career. This policy ensures that curriculum planning and assessment for children with special educational needs takes account of the type and extent of the difficulty experienced by the child.

2. Aims and objectives

- 2.1** The aims of this policy are:
 - to create an environment that meets the special educational needs of each child;
 - to ensure that the special educational needs of children are identified, assessed and provided for;
 - to make clear the expectations of all partners in the process;
 - to identify the roles and responsibilities of staff in providing for children's special educational needs;
 - to enable all children to have full access to all elements of the school curriculum;
 - to ensure that parents are able to play their part in supporting their child's education;
 - to ensure that our children have a voice in this process.

3. Educational inclusion

- 3.1** In our school we aim to offer excellence and choice to all our children, whatever their ability or needs. We have high expectations of all our children. We aim to achieve this through the removal of barriers to learning and participation. We want all our children to feel that they are a valued part of our school community. Through appropriate curricular provision, we respect the fact that children:
- have different educational and behavioural needs and aspirations;
 - require different strategies for learning;
 - acquire, assimilate and communicate information at different rates;
 - need a range of different teaching approaches and experiences.
- 3.2** Teachers provide Quality First Teaching through a differentiated curriculum. They respond to children's needs by:
- providing support for children who need help with communication, language and literacy;
 - planning to develop children's understanding through the use of all available senses and experiences;
 - planning for children's full participation in learning, and in physical and practical activities;
 - helping children to manage their behaviour and to take part in learning effectively and safely;
 - helping individuals to manage their emotions, particularly trauma or stress, and to take part in learning.
- 3.3** Pupils who are functioning, or have the ability to function at a higher level at one or more areas than the vast majority of their peers, regardless of the intake of the school, are provided for by careful planning. Teachers meet the demands of these pupils through differentiated extension work.

4. Special educational needs

- 4.1** Children with special educational needs have learning difficulties that call for special provision to be made. All children may have special needs at some time in their lives. Children have a learning difficulty if:
- they have significantly greater difficulty in learning than the majority of children of the same age;
 - they have a disability which prevents or hinders them from making use of the educational facilities that are provided for children of the same age;
 - they are under school age and fall within the definitions above.

- 4.2** Many of the children who join our school have already attended an early education setting. In many cases children join us with their needs already assessed. All our children are assessed when they join our school, so that we can build upon their prior learning. We use this information to provide starting points for the development of an appropriate curriculum for all our children.
- 4.3** If our assessments show that a child may have a learning difficulty, we use a range of strategies that make full use of all available classroom and school resources. This level of support is called School Action. The child's class teacher will offer interventions that are different from or additional to those provided as part of the school's usual working practices. The class teacher will keep parents informed and draw upon them for additional information. The Special Educational Needs Co-ordinator (SENCO), if not already involved, will become involved if the teacher and parents feel that the child would benefit from further support. The SENCO will then take the lead in further assessments of the child's needs. The following assessments are available in school: Bangor Dyslexia Test, The Dyslexia Early Screening Test (DEST), The Dyslexia Screening Test (DST), Wilkins Rate of Reading Test and Intuitive Overlays (Coloured overlays for people with reading difficulty and visual discomfort), Phonological Assessment Battery (PhAB), The Updated Salford and a range of diagnostic checklists for reading, spelling and behavioural difficulties provided by our learning support team. When necessary classroom observations are also undertaken by the SENCO to provide further evidence about a child's particular difficulties.
- 4.3** If support is needed from outside services, we will consult parents prior to any support being actioned. In most cases, children will be seen in school by external support services. This may lead to additional or different strategies.
- 4.4** If the child continues to demonstrate significant cause for concern, a request for statutory assessment will be made to the LEA, as set out in the Wirral Handbook. A range of written evidence about the child will support the request.
- 4.4** In our school the SENCO:
- manages the day-to-day operation of the policy;
 - has responsibility for overseeing the drawing up of One Page Profiles and Health Care Plans.
 - has responsibility for maintaining both the SEN Register and the Monitoring list (children with records of concern)
 - co-ordinates the provision for and manages the responses to children's special needs;
 - support and advise colleagues;
 - oversees the records of all children with special educational needs;
 - acts as the link with parents;

- acts as link with external agencies and other support agencies;
- monitors and evaluates the special educational needs provision and reports to the governing body;
- manages a range of resources, human and material, to enable appropriate provision for children with special educational needs;
- contributes to the professional development of all staff;
- liaises with secondary schools on transfer of Year 6 children;
- co-ordinates with the Head teacher meetings for annual review of statemented children

5. The role of the governing body

- 5.1** The governing body has due regard to the Code of Practice when carrying out its duties toward all pupils with special educational needs.
- 5.2** The governing body does its best to secure the necessary provision for any pupil identified as having special educational needs. The governors ensure that all teachers are aware of the importance of providing for these children. They consult the LA and other schools, when appropriate, and report annually to parents on the success of the school's policy for children with special educational needs. The governing body ensures that parents are notified of a decision by the school that SEN provision is being made for their child.
- 5.3** The governing body has identified a governor to have specific oversight of the school's provision for pupils with special educational needs. The 'responsible person' in this school is the Head Teacher. The Head Teacher ensures that all those who teach a pupil with a statement of special educational needs are aware of the nature of the statement.
- 5.4** The SEN governor Mrs K. Robson ensures that all governors are aware of the school's SEN provision, including the deployment of funding, equipment and personnel.

6. Allocation of resources

- 6.1** The SENCO is responsible for the operational management of the specified and agreed resourcing for special needs provision within the school, including the provision for children with statements of special educational needs.
- 6.2** The Head Teacher informs the governing body of how the funding allocated to support special educational needs has been employed.

- 6.3** The Head Teacher and the SENCO meet regularly to agree on how to use funds directly related to statements. The SENCO draws up the resources bid when the school is planning for the next school improvement plan.

7. Assessment

- 7.1** Early identification is vital. The class teacher informs the parents at the earliest opportunity to alert them to concerns and enlist their active help and participation.
- 7.2** The class teacher and the SENCO assess and monitor the children's progress regularly. Every autumn the children are assessed using standardised tests. These tests assess spelling, reading, numeracy skills and general ability. In addition, the children are given half term assessments. The class teacher will analyse the scores and where there are discrepancies, s/he will discuss these with the SENCO. Where appropriate further assessments will then be carried out by the SENCO, as outlined in paragraph 3.4. This is an ongoing process.
- 7.3** The SENCO works closely with parents and teachers to plan an appropriate programme of support.
- 7.4** The assessment of children reflects as far as possible their participation in the whole curriculum of the school. The class teacher and the SENCO can break down the assessment into smaller steps in order to aid progress and provide detailed and accurate indicators.
- 7.5** The LA seeks a range of advice before making a formal statement. The needs of the child are considered to be paramount in this.

8. Access to the curriculum

- 8.1** All children have an entitlement to a broad and balanced curriculum, which is differentiated to enable children to:
- understand the relevance and purpose of learning activities;
 - experience levels of understanding and rates of progress that bring feelings of success and achievement.
- 8.2** Teachers use a range of strategies to meet children's special educational needs. Lessons have clear learning objectives; we differentiate work appropriately, and we use assessment to inform the next stage of learning.

- 8.3** We support children in a manner that acknowledges their entitlement to share the same learning experiences that their peers enjoy. Wherever possible, we do not withdraw children from the classroom situation. There are times, though, when to maximise learning, we ask the children to work in small groups, or in a one-to-one situation outside the classroom.

9. Partnership with parents

- 9.1** The school works closely with parents in the support of those children with special educational needs. We encourage an active partnership through an ongoing dialogue with parents. The home-school agreement is central to this. Parents have much to contribute to our support for children with special educational needs.
- 9.2** A named governor takes a special interest in special needs and is always willing to talk to parents.
- 9.3** We have regular meetings to share the progress of special needs children with their parents. We inform the parents of any outside intervention, and we share the process of decision-making by providing clear information relating to the education of children with special educational needs.

10. Pupil participation

- 10.1** In our school we encourage children to take responsibility for their work and relationships and to make decisions on all aspects of school life. This is part of the culture of our school and relates to children of all ages. The work in the Foundation Stage recognises the importance of children developing social as well as educational skills.
- 10.2** Children are involved at an *appropriate level* in setting personal targets. Children are encouraged to make judgements about their own performance against their targets. We recognise success here as we do in any other aspect of school life.

11. Monitoring and evaluation

- 11.1** The SENCO monitors the movement of children within the SEN system in school. The SENCO provides staff and governors with regular summaries of the impact of the policy on the practice of the school.

-
- 11.2** The SENCO and Head Teacher hold regular meetings to review the work of the school in this area. The SENCO and Mrs Robson, the governor with responsibility for special needs, also hold meetings as regularly as possible.
- 11.3** The governing body reviews this policy annually and considers any amendments in the light of the annual review findings. The SENCO reports the outcome of the review to the full governing body.
- 11.4** Success can be monitored by studying quality of teaching and learning and the attitudes of parents and pupils.
