Rubbish at 'The Dips' in New Brighton

Monday 1st June

"It's not hard to bag your stuff up and take it home and bin it there."

"The mess left at the Dips on Saturday night was appalling – broken bottles, cans and empty cannisters."

"There is absolutely no excuse for what they did."

"The 'someone else will sort it' simply isn't good enough."

"The litter that's being left could cause so many issues to people's pets as well and our local wildlife."

"We must do better. Take a bag with you and leave the beach and other Wirral beauty spots as you found them."

"If the nearest bin is full, take it to another one if possible. If that is full, take it home with you."

"Lots of the plastic will likely make its way into the sea and could end up miles and miles away causing great damage and suffering to marine life."
